

Introduction

The Hague Convention of 29 May 1993 on Protection of Children and Co-operation in Respect of Intercountry Adoption (1993 Hague Convention) provides for the collection and exchange of statistics on intercountry adoption as a means to promote co-operation amongst Central Authorities, verify that safeguards are met, and facilitate the provision of post-adoption services. Access to these statistics allows stakeholders to monitor the operation of the Convention, develop policy, and identify good practice in intercountry adoption.

Guide to Good Practice No 1 recognises the utility of statistics in measuring the effective implementation of the 1993 Hague Convention (para. 189). In particular, when analysed alongside economic and demographic data, statistics can help stakeholders understand the fundamental nature of intercountry adoption and monitor its geographic and temporal trends.

The last meetings of the Special Commissions have also underlined the importance for States Parties to submit general statistics on an annual basis to the Permanent Bureau using its standard forms (Recommendation Nos 9 and 30 of the 2005 and 2010 Special Commission meetings respectively). Therefore, the Permanent Bureau would be very thankful if States, insofar as they have not already done so, could complete the updated standard forms for the years 2010 to 2014 (inclusive) (States do not need to resubmit statistics that have previously been furnished). The forms are also available on the Hague Conference website at < www.hcch.net > under "Intercountry Adoption Section" then "Statistics".

States are encouraged to submit completed forms by e-mail to < secretariat@hcch.net > for the attention of Ms Laura Martínez-Mora, Secretary.

Note [2]: If your national statistics are compiled according to other age groups, please indicate accordingly e.g. if you only count the number of children under 5, you should combine the two columns here that refer to children under 1 year old and between 1 and 4 years old.

Note [3]: Children with special needs are those who may be suffering from a behaviour disorder or trauma, physically or mentally disabled, older children (usually above 7 years of age), or part of a sibling group.

Note [4]: Intra-family adoptions include step-parent adoptions. If possible, please indicate separately in this column the number of intra-family adoptions that are step-parent adoptions. If your national statistics do not distinguish adoptions by relatives, please state "n/a".

Note [5]: Please add as many States as required

Note [1]: This number includes adoptions completed in the State of origin and adoptions completed in your State.

Note [2]: If your national statistics are compiled according to other age groups, please indicate accordingly e.g. if you only count the number of children under 5, you should combine the two columns here that refer to children under 1 year old and between 1 and 4 years old.

Note [3]: Children with special needs are those who may be suffering from a behaviour disorder or trauma, physically or mentally disabled, older children (usually above 7 years of age), or part of a sibling group.

Note [4]: Intra-family adoptions include step-parent adoptions. If possible, please indicate separately in this column the number of intra-family adoptions that are step-parent adoptions. If your national statistics do not distinguish adoptions by relatives, please state "n/a".
