¹⁶ C&R No 31 of the 2015 SC:

“The SC noted that, where not prohibited by domestic legislation, and after professional matching, **contact between the adoptee and biological family** in intercountry adoption may be **beneficial** in some cases. In order to maximise the benefits and minimise the risks of such contact, professional support should be offered to prepare the parties, as well as to assist them during and after contact. The adopted child’s best interests should guide the nature of this contact, considering his or her wishes” [emphasis added].

6. NON-CONSENSUAL ADOPTIONS

In this Questionnaire, non-consensual adoption refers to the adoption of children whose birth parents have been deprived of parental responsibility by a competent authority but nonetheless disagree with the adoption. It does not intend to cover adoption where consent of the birth parents is required but not sought (such adoptions would fall under the category of illegal adoption), or where consent of the birth parents cannot be sought (e.g., they are deceased or unknown).

States of origin only

61.	<p>What are the circumstances in your State in which a parent can lose his or her parental responsibility?</p> <p>Only the court can deprive a parent of his/her parental responsibility. Main reason is lack of interest in the child for a specifically time period or serious abuse or neglect of children.</p>
62.	<p>Does your State permit the adoption of children whose birth parents have been deprived of parental responsibility?</p> <p><input checked="" type="checkbox"/> Yes. Please also specify whether measures to support the birth family's reunification and alternative care options (e.g., long-term foster care, kinship care) are considered prior to making the decision of non-consensual adoption.</p> <p style="padding-left: 20px;">When the child is declared adoptable then the family care has been sought within the Czech Republic for 6 months. After 6 months the child's dossier is sent to the Central Authority which provides matching with PAPs from Receiving States. It must be sure that there is no chance to facilitate a long-term foster care for the child or it cannot be supposed that there will be a person relative to a child who could be able to take care of the child in the future.</p> <p>(c) what is the procedure applicable to such non-consensual adoptions (e.g.: how the child is declared adoptable; if the birth parents are given notice of the procedure; if the birth parents can contest).</p> <p style="padding-left: 20px;">The court appoints a guardian who gives consent instead of parents.</p> <p><input type="checkbox"/> No. Please explain your response:</p> <p style="padding-left: 20px;">Please insert text here</p>

Receiving States only

7.2. Summer camps / hosting programmes

In this Questionnaire, the "summer camps" practice is when adoptable children and PAPs attend an event (usually a camp) in the PAPs' State of residence (i.e., receiving State) or in the State of origin, usually for a period of several weeks. The hope is that the PAPs will want to apply to adopt one or more of the children they have spent time with during this event.

"Hosting programmes" (including "respite care" programmes for children who go abroad to improve their physical and psychological well-being) are when adoptable children are hosted by families living abroad, usually for a period of several weeks, sometimes with the hope that the families will wish to adopt them after the hosting.

67.	Is your State involved in summer camps / hosting programmes for children? ¹⁷
