
QUESTIONNAIRE ON THE USE OF IT IN THE OPERATION OF THE EVIDENCE CONVENTION

[NAME of STATE or territorial unit:]

Latvia

1.1 To what extent is Your State in favour of the use of information technology to facilitate the operation of the Evidence Convention?

Strongly in favour

1.1 To what extent is Your State in favour of the use of information technology to facilitate the operation of the Evidence Convention? - comment

1.2 Is the transmission by electronic means of requests for the taking of evidence possible under the internal law of Your State?

Yes

1.2 Is the transmission by electronic means of requests for the taking of evidence possible under the internal law of Your State? - comment

Please provide the specific provision/s:

1.3 Is the execution by electronic means of requests for the taking of evidence possible under the internal law of Your State?

Yes

1.3 Is the execution by electronic means of requests for the taking of evidence possible under the internal law of Your State? - comment

Please provide the specific provision/s:

1.4 Is Your State party to any bilateral or multilateral agreements, other than the Evidence Convention, which provide for the use of electronic means in the transmission or execution of requests for the taking of evidence?

Yes

1.4 Is Your State party to any bilateral or multilateral agreements, other than the Evidence Convention, which provide for the use of electronic means in the transmission or execution of requests for the taking of evidence? - comment

Please provide the specific provision/s:

Latvia is a EU member state and thus Regulation (EC) No 1206/2001 of 28 May 2001 on cooperation between the courts of the Member States in the taking of evidence in civil or commercial matters is binding to Latvia.

1.5 Has Your State encountered any challenges regarding the use of information technology to facilitate the operation of the Evidence Convention?

No

[Internal law limitations]

No

[Judicial or administrative structures]

No
[Implementation challenges (e.g. lack of resources)]

No
[Costs]

No
[Selection of the appropriate technology]

No
[System interoperability / compatibility]

No
[Security concerns]

No
[Cooperation with other Contracting Parties]

No
[Other Challenges]

No
Please specify:

1.6 To what extent would Your State be in favour of a common electronic platform to be used by all Contracting Parties for the operation of the Evidence Convention?

Somewhat in favour

Please explain your reasoning, if possible:

Regulation (EC) No 1206/2001 (Taking of evidence) is now being amended at the EU level where it is envisaged to use an e-CODEX system for the requests of taking of evidence between the authorised entities of the EU member states.

Even though we support the use of information technology to facilitate the operation of the Evidence Convention we are cautious about the invention of yet another electronic system/platform for the taking of evidence, in particular we are concerned with possible costs that the implementation of such platform would cause.

1.7 What, if any, particular challenges does Your State envisage in relation to the possible use of a common electronic platform to be used by all Contracting Parties in the operation of the Evidence Convention? [Internal law limitations]

No
1.7 What, if any, particular challenges does Your State envisage in relation to the possible use of a common electronic platform to be used by all Contracting Parties in the operation of the Evidence Convention? [Judicial or administrative structures]

No
1.7 What, if any, particular challenges does Your State envisage in relation to the possible use of a common electronic platform to be used by all Contracting Parties in the operation of the Evidence Convention? [Implementation challenges (e.g. lack of resources)]

No
1.7 What, if any, particular challenges does Your State envisage in relation to the possible use of a common electronic platform to be used by all Contracting Parties in the operation of the Evidence Convention? [Costs]

Yes
1.7 What, if any, particular challenges does Your State envisage in relation to the possible use of a common electronic platform to be used by all Contracting Parties in the operation of the Evidence Convention? [Selection of the appropriate technology]

No
1.7 What, if any, particular challenges does Your State envisage in relation to the possible use of a common electronic platform to be used by all Contracting Parties in the operation of the Evidence Convention? [System interoperability / compatibility]

Yes
1.7 What, if any, particular challenges does Your State envisage in relation to the possible use of a common electronic platform to be used by all Contracting Parties in the operation of the Evidence Convention? [Security concerns]

No

1.7 What, if any, particular challenges does Your State envisage in relation to the possible use of a common electronic platform to be used by all Contracting Parties in the operation of the Evidence Convention? [Cooperation with other Contracting Parties]

Yes

1.7 What, if any, particular challenges does Your State envisage in relation to the possible use of a common electronic platform to be used by all Contracting Parties in the operation of the Evidence Convention? [Other challenges]

No

Please specify:

1.8 What is the status of the use of information technology in Your State for the transmission of Letters of Request under the Evidence Convention?

Not (yet) under consideration

1.9 What type of electronic transmission does Your State use, or would consider using for Letters of Request under the Evidence Convention?

Distributed ledger technology (DLT): A database held by participants (or nodes) in a decentralised network, where transactions and records are processed, saved and replicated by each node independently and shared with the other nodes, seeking to validate the transaction by achieving consensus on its authenticity. Blockchain is perhaps one of the most well-known of the various forms of DLT. [E-mail (regular)]

Yes

1.9 What type of electronic transmission does Your State use, or would consider using for Letters of Request under the Evidence Convention?

Distributed ledger technology (DLT): A database held by participants (or nodes) in a decentralised network, where transactions and records are processed, saved and replicated by each node independently and shared with the other nodes, seeking to validate the transaction by achieving consensus on its authenticity. Blockchain is perhaps one of the most well-known of the various forms of DLT. [E-mail (secured/encrypted)]

No

1.9 What type of electronic transmission does Your State use, or would consider using for Letters of Request under the Evidence Convention?

Distributed ledger technology (DLT): A database held by participants (or nodes) in a decentralised network, where transactions and records are processed, saved and replicated by each node independently and shared with the other nodes, seeking to validate the transaction by achieving consensus on its authenticity. Blockchain is perhaps one of the most well-known of the various forms of DLT. [Electronic transmission platform administered by a public/State authority]

No

1.9 What type of electronic transmission does Your State use, or would consider using for Letters of Request under the Evidence Convention?

Distributed ledger technology (DLT): A database held by participants (or nodes) in a decentralised network, where transactions and records are processed, saved and replicated by each node independently and shared with the other nodes, seeking to validate the transaction by achieving consensus on its authenticity. Blockchain is perhaps one of the most well-known of the various forms of DLT. [Electronic transmission platform administered by a private service provider]

No

1.9 What type of electronic transmission does Your State use, or would consider using for Letters of Request under the Evidence Convention?

Distributed ledger technology (DLT): A database held by participants (or nodes) in a decentralised network, where transactions and records are processed, saved and replicated by each node independently and shared with the other nodes, seeking to validate

the transaction by achieving consensus on its authenticity. Blockchain is perhaps one of the most well-known of the various forms of DLT. [Electronic transmission using distributed ledger technology]

No

1.9 What type of electronic transmission does Your State use, or would consider using for Letters of Request under the Evidence Convention?

Distributed ledger technology (DLT): A database held by participants (or nodes) in a decentralised network, where transactions and records are processed, saved and replicated by each node independently and shared with the other nodes, seeking to validate the transaction by achieving consensus on its authenticity. Blockchain is perhaps one of the most well-known of the various forms of DLT. [Other]

Yes

Please provide details:

Exchange of letters.

1.10 On average, approximately what percentage of Letters of Request transmitted electronically by other Contracting Parties does Your State accept?

(Please round the estimated percentage down, if applicable)

Unknown

1.11 Since 2014, on average, approximately what percentage of Letters of Request received by Your State were transmitted electronically by authorities of other Contracting Parties?

(Please round the estimated percentage down, if applicable)

Unknown

If possible, please provide the number of Letters of Request transmitted electronically that were received per year, and the name(s) of the main Contracting Parties from which these were received: [2014:]

If possible, please provide the number of Letters of Request transmitted electronically that were received per year, and the name(s) of the main Contracting Parties from which these were received: [most received from:]

If possible, please provide the number of Letters of Request transmitted electronically that were received per year, and the name(s) of the main Contracting Parties from which these were received: [2015:]

If possible, please provide the number of Letters of Request transmitted electronically that were received per year, and the

name(s) of the main Contracting Parties from which these were received: [2018:]

If possible, please provide the number of Letters of Request transmitted electronically that were received per year, and the name(s) of the main Contracting Parties from which these were received: [most received from:]

1.12 If the Central Authority of Your State has received Letters of Request transmitted electronically under the Evidence Convention, on average, approximately what percentage of these Letters of Request are subsequently forwarded electronically to the competent judicial authority for execution?

(Please round the estimated percentage down, if applicable)

Unknown

If possible, please provide details as to how the documents establishing execution are forwarded:

1.13 What is the status of the implementation an electronic case management system in Your State for incoming and outgoing Letters of Request issued pursuant to the Evidence Convention?

Electronic case management system: A system that enables casework and related workflows to be followed and managed through electronic communication of information between the individuals concerned (incl. staff, as well as parties and their representatives in some cases).

Not (yet) under consideration

1.14 What type of electronic case management system does Your State use, or would consider using for incoming and outgoing Letters of Request issued pursuant to the Evidence Convention?

Electronic case management system: A system that enables casework and related workflows to be followed and managed through electronic communication of information between the individuals concerned (incl. staff, as well as parties and their representatives in some cases).

Distributed ledger technology (DLT): A database held by participants (or nodes) in a decentralised network, where transactions and records are processed, saved and replicated by each node independently and shared with the other nodes, seeking to validate the transaction by achieving consensus on its authenticity. Blockchain is perhaps one of the most well-known of the various forms of DLT.

Other

Please provide details:

We would like to use that kind of system that is compatible with the EU Regulations system - in order for HCCH and EU have the same system.

1.15 If Your State uses an electronic case management system for incoming and outgoing Letters of Request issued pursuant to the Evidence Convention, which of the following best describes the system?

Electronic case management system: A system that enables casework and related workflows to be followed and managed through electronic communication of information between the individuals concerned (incl. staff, as well as parties and their representatives in some cases).

Not applicable

1.15 If Your State uses an electronic case management system for incoming and outgoing Letters of Request issued pursuant to the Evidence Convention, which of the following best describes the system?

Electronic case management system: A system that enables casework and related workflows to be followed and managed through electronic communication of information between the individuals concerned (incl. staff, as well as parties and their representatives in some cases). - comment

1.16 In 2018, on average, approximately what percentage of Letters of Request received by Your State under the Evidence Convention were executed using information technology?

(Please round the estimated percentage down, if applicable)

Unknown

1.17 When competent authorities of Your State execute Letters of Request transmitted electronically by another Contracting Party under the Evidence Convention, on average, in approximately what percentage of such instances are documents establishing the execution of the Letter of Request returned electronically to the requested authority (Art. 13)?

(Please round the estimated percentage down, if applicable)

Unknown

If possible, please provide details as to how the documents establishing execution are returned:

1.18 In 2018, what was the approximate percentage (on average) of Letters of Request received by Your State in which the use of information technology was requested in the taking of evidence under the Evidence Convention?

(Please round the estimated percentage down, if applicable)

Unknown

If possible, please provide the following details: [Number of such requests:]

If possible, please provide the following details: [Main Contracting Parties from which such requests were received:]

Technology(ies) requested:

Distributed ledger technology (DLT): A database held by participants (or nodes) in a decentralised network, where transactions and records are processed, saved and replicated by each node independently and shared with the other nodes, seeking to validate the transaction by achieving consensus on its authenticity. Blockchain is perhaps one of the most well-known of the various forms of DLT. [Teleconferencing / audio-link]

No

3.1 Is Your State a Contracting Party to the Evidence Convention?

Yes

3.2 If Your State is a Contracting Party, are the contact details of the Central and competent Authority(ies) designated by Your State up to date on the Evidence Section of the HCCH website?

See Conclusion & Recommendation No 4 of the 2014 meeting of Special Commission.

No

Please provide the contact details below: [Central Authority/ies:]

Ministry of Justice of the Republic of Latvia

Please provide the contact details below: [Address:]

Brivibas blvd. 36, Riga, Latvia

Please provide the contact details below: [Telephone:]

+371 67036824

Please provide the contact details below: [Fax:]

-

Please provide the contact details below: [E-mail:]

tm.kanceleja@tm.gov.lv

Please provide the contact details below: [General website:]

www.tm.gov.lv

Please provide the contact details below: [Contact person:]

Director Baiba Jugane-Lintere

Please provide the contact details below: [Languages spoken by staff:]

English, Latvian, Russian

3.3 If Your State is a Contracting Party, is the practical information chart available on the Evidence Section of the HCCH website up to date?

See Conclusion & Recommendation No 4 of the 2014 meeting of Special Commission.

No

Please complete or provide the updates to the chart using the template available here.

```
[{ "title": "", "comment": "", "size": "579.175", "name": "EVIDENCE%20CONVENTION%20QUESTION%203-3%20ATTACHMENT%20SD.docx", "filename": "fu_6gig5afe4w8749q", "ext": "docx" }]
```

3.4 If Your State is a Contracting Party, is the Country Profile in relation to the taking of evidence by video-link under the Evidence Convention up to date?

See Conclusion & Recommendation No 14 of the 2017 meeting of Council on General Affairs and Policy.

No

Please complete or update the Country Profile available here.
