PART IV: THE CHILDREN PROPOSED FOR INTERCOUNTRY ADOPTION

9. The profile of children in need of intercountry adoption	
Please briefly describe the general profile of the children usually in need of intercountry adoption in your State (e.g., age, sex, state of health).	The average profile of Filipino children in need of inter-country adoption are from 1 year old to 15 years old, both male and female, healthy or with minor medical or psychological conditions. However through the years, NACC noted that Filipino children belonging to the age range of seven (7) years old and above is increasing.

10. The adoptability of a child (Art. 4(a))	
a) Which authority is responsible for establishing that a child is adoptable?	NACC
b) Which criteria are applied to determine whether a child is adoptable?	The issuance of the Certification of a Child Legally Available for Adoption (CDCLAA). The CDCLAA is a requisite document for all adoption proceedings.
c) Please briefly describe the procedures used in your State to determine whether a child is adoptable (e.g., search for the child's birth family). <i>N.B. the issue of consent is dealt with at Question 12 below.</i>	<p>The biological parents are always encouraged to maintain the custody of their children with available psychosocial welfare services made accessible to them to offset any psycho-socioeconomic impediments which are predisposing such parents to abuse/exploit and surrender their child/ren. Hence, before any child can be placed for adoption, the law requires the following steps to be taken:</p> <p>1) Counseling sessions with the biological parents or guardians to ensure that no hurried decisions are made and all alternatives/options for the child's future and the implications of each alternative have been provided;</p> <p>2) Counseling sessions with the child to ensure he understands the nature and effects of adoption and is able to express his views on adoption in accordance to his age and level of maturity.</p> <p>After being properly counseled and informed of the implications of adoption, and the biological parents or guardians remain steadfast on their</p>

	<p>decision to give up or surrender the child for adoption, the written consent is required indicating that the biological parents or guardians voluntarily, irrevocably and unconditionally commit the child/ren for adoption (Deed of Voluntary Commitment or DVC). Existing laws in the Philippines e.g. P.D. 603, Family Code, RA 7610 and the Domestic Administrative Adoption and Alternative Child Care have provisions that will ensure that no undue financial gain or material rewards will be employed to effect relinquishment of (a) Filipino child/ren for the adoption. Otherwise, any subsequent adoption emanating from such a consent is considered as illegal adoption.</p> <p>In cases where the biological parents have abandoned the child/ren, the law requires that the child's parents be located. Hence, all reasonable means must be exhausted to look for them i.e. announcement on radio and television, publication in a newspaper of general circulation with a photo of the child and posting of notices in the locality or residence of the child to inform the public. If such efforts fail, the provisions of RA 11642 will be undertaken to declare the child legally available for adoption. If the child is a foundling and has no known facts of birth, such child shall be issued a Foundling Certificate by the Local Civil Registrar.</p>
--	---

11. The best interests of the child and subsidiarity (Art. 4(b))	
<p>a) Please briefly describe how your State ensures that the principle of subsidiarity is respected when undertaking intercountry adoptions (e.g., through the provision of family support services, the promotion of family reunification and domestic alternative care solutions).</p>	<p>The following is the hierarchy of options adhered to, to safeguard the child:</p> <ol style="list-style-type: none"> 1) family solutions (reunification to the birth family, foster care and adoption) is preferred over institutional placement; 2) permanent solutions (reunification to the birth family, adoption) should be preferred to provisional ones (institutional placement, foster care); 3) national solutions (reunification to birth family, national adoption) should be preferred to international ones (inter-country adoption). <p>It is a consensus in the Philippines that the continuum of child care services must be availed of and fully exhausted before inter-country adoption is chosen. Preference for domestic or local adoption over inter-country adoption is</p>

	encouraged to preserve the child's social and cultural identity.
b) Which authority determines, after consideration of the subsidiarity principle, that an intercountry adoption is in a child's best interests?	The National Authority for Child Care (NACC) determines that the child is eligible for intercountry adoption.
c) Please briefly explain how that decision is reached (e.g., whether there are specific legal criteria which are applied) and at what stage of the intercountry adoption procedure.	Filipino children certified legally available for adoption are presented before the Regional Child Placement Committee where these available children are matched with local adoptive parents. When no regional approved adoptive parents are found, the child/ren are matched with Prospective Adoptive Parents from the other regions of the Philippines (InterRegional matching). Children are presented for matching inter-regional matching twice before they can be cleared for intercountry adoption placement. However, for children with special needs (with medical or psychological problems or member of sibling group or older children) matching presentation in the regional/interregional level is done once and when no suitable adoptive parents are available, are immediately cleared for intercountry adoption.

12. Counselling and consents (Art. 4(c) and (d))

Please also specify whether your answer would be different if any of</p>	<ul style="list-style-type: none"> (i) Both parents especially for legitimate children; minors must likewise execute the consent but must be duly assisted by the mother or the maternal grandmother; if unmarried, the birthfather must sign the consent if he acknowledges the child as his by his having signed or caused the registration of the birth. <p>b) Please describe the procedure for:</p> <p>(i) counselling and informing the birth parents / family regarding the consequences of a domestic / intercountry adoption; and</p> <p>(ii) obtaining their consent(s) to an adoption.¹³</p>	<p>(i) Biological parent/s are counseled regarding (1) their options to keep the child and avail of services and assistance; (2) avail of temporary child care arrangements such as foster care; or (3) relinquish the child for adoption. Counseling is provided in the language and manner understandable to the biological parent/s or legal guardian on the implications of relinquishing his/her parental authority over the child focusing on (1) the loss of parental rights over the child and as a rule, not having further contact with the child; (2) the importance of providing relevant information on the child, their own medical history and family background (3) the possibility that the child may be placed for adoption within the Philippines or in a foreign country; (4) the possibility that in the future, there may be communication with the child at their or the child's initiative and (5) the right to reconsider his/her decision to relinquish his/her child within 3 months from signing the Deed of Voluntary Commitment (DVC) subject to the assessment by the NACC through its RACCO.</p> <p>(ii) Execution of a Deed of Voluntary Commitment which terminates parental authority and passes the authority to the State.</p>
<p>c) Does your State use the model form “<i>Statement of consent to the adoption</i>” developed by the Permanent Bureau of the HCCH?</p> <p><i>The model form is available on the Adoption section of the HCCH website.</i></p>	<p><input type="checkbox"/> Yes</p> <p><input checked="" type="checkbox"/> No – please provide (or link to) any form(s) which your State uses for this purpose:</p>
<p>d) Having regard to the age and degree of maturity of a child, please briefly describe how your State ensures that consideration is given to the child’s wishes and opinions when determining whether an intercountry adoption should proceed.</p>	<p>A prospective adoptee is provided with counseling and other support services appropriate to his/her age and maturity and in manner and language that the child comprehends, especially to enable him/her to understand why he/she has been relinquished for adoption. b) What measures are taken to ensure that the matching process is performed by an independent, duly qualified authority?	<p>Depending on the profile of the child and other NACC set policies on allocation, 5 to 10 family dossiers will be given to the child's social worker who will choose two (2) priority families for presentation and deliberation by the Child Placement Committee (CPC). 1st and 2nd priority families/PAPs are designated. During the CPC Matching Conference, the CCA/CPA social worker will present/s the case history of the child focusing on the child's background, medical history, current level of functioning, needs and characteristics of the child to determine which family is best suited for the child/ren. The two (2) prioritized families are presented focusing on why the family can best meet the needs of the child. c) What methodology is used for the matching in your State? f) How does your State ensure that the prohibition on contact in Article 29 is respected?	Biological parents who surrender their children for adoption are allowed by law a certain period of time to file a petition for the restoration of their parental authority. The refusing family must submit a letter explaining the reason/s for the non-acceptance. If neither one of two priority families accepts the child, a rematching is scheduled and the child/ren's social worker will undertake a second Pre-Matching and Matching Process.</p> <p>Failure to properly justify the refusal (must be based on the "child acceptable checklist") will merit the removal from the roster of approved parents and may cause permanent disqualification to adopt from the Philippine adoption program when Approved adoptive applicants who for the first time, refuse the child proposed to them for (a) valid reason/s will merit a notation of their refusal in the Roster of Approved Applicants together with the reason for such refusal.</p> <p>PAPS refuse two (2) times a child proposal because of certain remarks or observation which they may have on the children proposed to them, will merit the suspension of their inclusion in the Roster of Approved Applicants for the next six months. After which, PAPs must submit an updated HSR. The date of receipt of the updated HSR will be the new date of their application.</p>
<p>22.3 Information following acceptance of the match</p>
