Les États ou unités territoriales suivants sont inclus dans cette compilation :

Allemagne, Argentine, Autriche, Belgique, Brésil, Estonie, États-Unis d'Amérique, France, Lettonie, Lituanie, Nicaragua, Norvège, Nouvelle-Zélande, Philippines, Pologne, Portugal, République tchèque, Royaume-Uni (Angleterre et pays de Galles), Royaume-Uni (Irlande du Nord), Suède, Suisse

Aux fins de la réunion du Groupe du 13 au 15 février 2023, les Membres sont invités à rendre compte de l'examen et / ou de la mise en œuvre des dispositions suivantes dans leur ressort juridique :

### **a. Évolutions générales en ce qui concerne les transferts internationaux d'aliments**

Allemagne	The German Reserve Bank (Deutsche Bundesbank) no longer processes checks since 1 January 2023. However, the German CA has made a temporary arrangement with a commercial bank in Germany to process checks between 15 December 2022 and 20 March 2023 in order to prevent any disruption in current payment processing. After 20 March 2023 the German CA will no longer accept child support payments by check and all payments must be made electronically. As the participation of the German CA as test partner in the OCSE's CAP service is concerned, please find more information in the DCL of OCSE under: <a href="https://www.acf.hhs.gov/css/policy-guidance/german-federal-office-justice-not-accepting-checks-after-march-20-2023">https://www.acf.hhs.gov/css/policy-guidance/german-federal-office-justice-not-accepting-checks-after-march-20-2023</a>
Argentine	There are a lot of difficulties around the cross-border transfer of maintenance funds (high bank fees, currency conversion costs, tax regulations to access foreign currency). So, it is very important to consider the different ways to facilitate it.
Autriche	Considerable reduction of cheques sent by other CAs.
Belgique	Notre Autorité centrale est majoritairement confrontée à des transferts intra-européen qui sont réalisés par virements bancaires, en euros. Nous rencontrons donc peu de difficulté si ce n'est la question de la conversion lorsque les paiements ne sont pas réceptionnés en euros.
Brésil	There are no developments to report. A new Government just took office, so there may be room for new solutions to be explored over the next years.
Estonie	In essence international collection proceedings has not changed, but we will mention that the national system of minimum child maintenance payments has changed. The minimum monthly child maintenance payment will not depend on the minimum wage anymore as of 1st of January 2022. Instead, it will be bound to the needs of the child, economic capability of the parents, family allowances paid by the state and the number of the children entitled to receive maintenance from the same person. <a href="https://www.just.ee/en/child-maintenance">https://www.just.ee/en/child-maintenance</a>
États-Unis d'Amérique	OCSE is pleased to report that its Central Authority Payment (CAP) service has been successfully implemented and is currently in production for outgoing U.S. payments between two U.S. states (Georgia and Michigan) and Germany. The CAP service, operated by OCSE, receives payments from participating U.S. states for foreign authorities that have enrolled in the service and consolidates those payments by destination foreign authority. The U.S. Department of Treasury's

	<p>International Treasury Service (ITS) sends a single weekly electronic payment in the foreign authority's local currency to the foreign authority. OCSE's CAP service provides a secure data file, containing the case and payment details for each child support payment, to the foreign authority. This information enables the foreign authority to disburse the funds received to the appropriate child support creditors. Over the next few months, the CAP service will work with additional U.S. child support agencies to help them enroll in CAP to send payments to Germany. Once that process has been completed, CAP will extend its services to manage payments to additional foreign authorities. OCSE will provide further enrollment information to Central Authorities at that time. OCSE is grateful to the Central Authorities of Germany and Sweden for their assistance in the design and development of its CAP service.</p>
France	We would be very much in favour of generalising the transfer of funds by bank transfer.
Lettonie	In general, no problems with the international transfer of maintenance funds have been detected. The main problem still is the use of cheques since it is not possible to cash them locally. The costs of currency conversion and transfer are borne by the debtor. The payments are handled between the parties themselves therefore they are free to choose from several commercial services for international transfers. When the maintenance order has been enforced, the seized payments are transferred to the creditor by the bailiff via the State Treasury.
Lituanie	The transfer of funds is not processed by the Central Authorities of Lithuania. There are no changes that we are aware of.
Nouvelle-Zélande	In late 2021 the child support administration moved to a new computer system that also allows for automatic electronic transfers of international maintenance.
Nicaragua	To date there are no new developments to report
Norvège	There have been no big developments, but we are still working on eliminating checks, We have started using standard XML - ISO20022 files when receiving payments. It has not yet been implelanted for outgoing payments.
Philippines	The DSWD as the designated Philippine Central Authority is in the process of crafting guidelines regarding the implementation of the 2007 Convention on Child Support including guidance on international transfer of maintenance funds in coordination with other relevant government agencies and stakeholders. Aside from the crafting of internal guidelines and as a way forward, the DSWD also will forge partnership between and among the government agencies and other partner stakeholders to effectively implement the mode of payment under the international transfer of maintenance fund.
Pologne	----- --
Portugal	The central authority does not handle the transfer of funds. Courts are responsible to process the tranference, but the transfer of funds is done by a public body (IGFEJ). We are seeking for techinal solutions so when a transfer is made by IGFEJ. I.P. the information is also made available to the central authority. We use the same case management system as the courts, and there is a possibility to ask authorization to access the file. With that authorization we can monitor the status of the enforcement and the payments that are done.
République tchèque	In majority electronic transfer of funds (mainly wire transfers) are being processed through our Office (the Czech CA). We try to find solutions for exceptional cases, in case our office is not able to use a particular payments option due to the legal restrictions for government agencies, we try to find individual solutions with the clients and our CA counterparts. Less leniency can be applied in cases where court enforcement and wage withholding is processed. In court ordered enforcement cases the employers pay through electronic wire transfers in CZK, so for payments to requesting states we can only use electronic bank transfer and a conversion would be applied by the banks. If payments are done directly by the debtor and not through court enforcement, the debtor has

	more options for example to send the payment in the currency of the child support order as our office holds accounts in various international currencies.
Royaume-Uni (Angleterre et pays de Galles)	No new developments since Experts Group - February 2022.
Royaume-Uni (Irlande du Nord)	We continue where possible to pay creditors from outside our jurisdiction electronically.
Suède	CA: Informal network to continue to improve cooperation and improve for children and parents in international maintenance cases. The Swedish Central Authority have also participated in the American project to reduce check payments. Enforcement Authority: The information attached to each payment has changed and improved. The information contains the debtors name, personal number, the Enforcement Authority's case number and the creditors reference number. The information appears on payments to bank accounts and on cheques. The informal network between the Central Authority and the Enforcement Authority continues
Suisse	General information: The current processing of international maintenance cases based on the conventions and agreements concluded by Switzerland is carried out in cooperation between the Central Authority at the federal level and the competent authorities in the cantons. In most cases, incoming and outgoing payments are made directly via the cantonal or local authorities and the parties concerned (and based on the respective terms and conditions of the individual banking relationships). Only within the framework of the transitional solutions with states which know cheque payments (Australia, USA, certain Canadian provinces) incoming payments to Switzerland are processed via the Central Authority. Therefore, the Central Authority does not have comprehensive knowledge of all the solutions used by the authorities in the cantons and in the individual cases. Latest developments: The Central Authority has (and will continue to do so) provided the competent authorities in the cantons, which handle the international maintenance cases, with information regarding the Report and Conclusions & Recommendations of the Experts' Group on international transfer of maintenance funds of 2022. This concerns in particular the following questions: c., d., e., f. and l.

<b>Philippines</b>	Use of cheque as a negotiable instrument is not restricted in the Philippines. The Central Authority may encourage the debtor to use any other mode of payment to the creditor such as bank to bank transactions or through financial service providers within and outside the Philippines. However, it does not preclude the debtor to use the cheque payment.

There is still a demand from our creditors to have the option to be paid by cheque, particularly in instances where the creditors do not have bank accounts and instead lodge their cheques to a savings account. Northern Ireland Central Authority are unable to pay directly into a savings account by way of electronic payment, so the option for creditors to receive payment via cheque in these instances is still required. Where creditors do request to be paid via electronic payment, this method of payment is being facilitated by the Northern Ireland Central Authority.

Allemagne	The German CA cannot accept checks from 21 March 2023 on and has asked the US States to make either wire payments directly to the German CA or to use OCSE CAP Service (cf. <a href="https://www.acf.hhs.gov/css/policy-guidance/german-federal-office-justice-not-accepting-checks-after-march-20-2023">https://www.acf.hhs.gov/css/policy-guidance/german-federal-office-justice-not-accepting-checks-after-march-20-2023</a> ). Prior to enrollment in OCSE's CAP service, US States have to reconcile their caseloads with the German CA. Mid-January, the German CA received the first weekly electronic bundled payment via SWIFT transaction which included child support payments from the first two US test States. There are a number of US States and the Canadian province Ontario that continue to send checks. With all other countries, all other Canadian provinces and territories and several US States Germany uses exclusively electronic payment systems.
Argentine	Veuillez saisir les informations demandées ici
Autriche	AT never used cheques and more and more other countries gave up to send those.
Belgique	Nous n'utilisons pas les chèques.
Brésil	The use of cheques is not common at all in incoming requests, as payments originated from Brazil are usually made by electronic transfers. Although a few cheques have been received at our central authority in response to outgoing cases, they had to be sent back, as the central authority cannot intermediate payments. In some cases, the only solution was to have the cheques sent directly from the requested central authority to the applicant in Brazil. Overall, in Brazil, cheques are not used for transactions and it is highly uncommon to receive them by post, which would most certainly indicate that they came from abroad. Most of the local financial transactions are also electronic.
Estonie	Veuillez saisir les informations demandées ici
États-Unis d'Amérique	Please see the response to (a) above. The CAP service provides a means for U.S. state child support agencies to transition from checks to electronic payments for outgoing international payments. Once the CAP service is implemented, OCSE expects the use of checks in international payments from the United States to be reduced.

Our bank was unable to find a partner institution which would provide this service for EU/overseas relations.
<b>Royaume-Uni (Angleterre et pays de Galles)</b>	No new developments since Experts Group - February 2022.
<b>Royaume-Uni (Irlande du Nord)</b>	S.O.
<b>Suède</b>	In incoming cases it is either the debtor him-/herself that pays to the creditor, but in enforcement case the Enforcement authority makes the payment. Please see response from Enforcement Authority. In outgoing case nearly all cases payments are made to Försäkringskassan as a public body, and if the child maintenance is higher than the maintenance support we pay the exceeding amount to the creditor, when the debtor has paid it to us. If the creditor has a bank account he or she will receive the payment electronically. If not the payment is made by cheque. However it is rare that the creditor in Sweden doesn't have a bank account. Enforcement Authority: Most of the payments to creditors are bank transfers. If the creditor does not have a bank account we make the payment pay by cheque.
<b>Suisse</b>	However, interim solutions are still in place because of cheque payments from the USA and certain Canadian provinces.

<b>Allemagne</b>	The German Central Authority is mainly involved in international transfer of maintenance funds from the US: As the OCSE CAP service is concerned, we are not aware of any deductions. Regarding other electronic payments from the US States to the German CA, apparently no major costs (around 1 %) arise as far as the German CA can compare the sent and the received amounts. Currently, the exchange rate used for the currency conversion of the amount transferred is not transmitted to the German CA. This is only possible for the Federal Treasury ("Bundeskasse", the holder of the bank account of the German CA). It could not be clarified so far whether it can also be given the opportunity to see the exchange rate used for currency conversion."

If we send the payment to the creditor by cheque the Enforcement Authority pays the fee for sending the cheque, 150 SEK. In a few months we will have a new framework agreement with our bank. <b>États-Unis d'Amérique</b>	The CAP service, described in paragraph (a), reduces the costs of child support payment transfers to foreign authorities by utilizing federal agencies for the transmission of funds. None of the federal agencies deduct fees or costs from the child support payments, and ITS converts payments to the currency of the foreign authority before sending them at a currency conversion rate beneficial for creditors. ITS uses well-established, high-volume methods to transmit the payments.

<b>Lettonie</b>	In outgoing cases the applicant is asked to provide precise information on the amount of the payment received. When statement of arrears is submitted to the requested state, the debtor can compare the amount paid with the amount received. In incoming cases the debtor is informed about the outstanding arrears so they can adjust the payment accordingly. It is up to the debtor to choose the most cost-effective payment method, for example, the debtor can open an account in the currency he is required to pay. Regulation regarding enforcement process clearly determine actions of sworn bailiffs in regard to incoming and outgoing payments in foreign currency. In accordance with the Law on Bailiffs, if the funds or other sums from debtor have been received in a foreign currency, they shall be converted into euro in accordance with the foreign exchange rate

	that is to be used in accounting for the date when the money is received in the deposit account of sworn bailiff. If an outgoing payment is to be made from the deposit account of sworn bailiff, the amount to be paid shall be converted in accordance with the foreign exchange rate to be used in accounting for the day of the payment to be sent out. Therefore, there is a clear regulation provided by the law regarding currency conversion.

Nouvelle-Zélande	We considered this when we looked for an international banking partner. Utilising IACH where possible brought international charges in line with our domestic funds transfers and the cost became negligible. As part of our negotiation for transparency, our FX rates use a basis point difference on Reuters FX advertised amounts on a day. This increased competitiveness and ensured an arms length approach. In countries that do not support an IACH and only traditional Telegraphic Transfer (TT) options are available we use a "Shared Cost" approach (SHA). This means we pay the outgoing cost, and the receiver pays their cost.

Norvège	We are responsible for the costs incurred by our bank in Norway. We have no control over the potential costs in the creditor's bank abroad.
Philippines	The Philippines has just started implementing the 2007 Convention on Child Support, thus no record yet regarding the costs related to the transfer of funds from debtor to creditor
Pologne	In the Polish legal system, the creditor does not bear the costs of enforcement proceedings, this is due to the provisions set forth in statutes, e.g., exemption from court costs Article 96(1)(2) of the Act of 28 July 1997 on Court Fees in Civil Proceedings (as amended). ("They are not required to pay court fees: the party claiming maintenance and the defendant in a maintenance reduction case") and Article 770(1) of the Code of Civil Procedure of 17 November 1964 (as amended).

	(“The debtor shall reimburse the creditor for the costs necessary for the expedient conduct of enforcement. These costs shall be collected together with the enforced benefit.”).
Portugal	The portuguese central authority centralized the paymens made by cheque from Estates where the electronic transfer of funds is not possible
République tchèque	The clients of The Czech Central Authority do not bear any costs related to the transfer of the maintenance funds, including fees to process check payment. The Czech Central Authority bears/pays the bank fees from our budget. For example with the check payments our authority has an individual agreement with the bank resulting in faster time for cashing the checks (for international checks a private clients could wait even several months for the payment to be processed).

The determination of any fees charged by the credit institution, its amount and the arrangements for collections are in the discretion of the credit institution as a merchant and are usually discussed with customers signing account service contracts. Consequently, the question of determining the fees charged by the credit institutions and its extent, as well as practical options for the transfers to be made in the enforcement proceedings, is subject to responsibility of the credit institutes and their supervising institutions. Payments are converted to the foreign currency using the rate at day of transfer to the Requesting State/creditor. <b>Allemagne</b>	In cases where debtors make electronic payments to the bank account of the German CA (held by the Federal Treasury/Bundeskasse) and the German CA forwards the payments to the recipients abroad, the recipients are informed in writing (by letter or email) of the first payment being made. In most cases, the recipients are asked to confirm receipt of the first payment by letter or email upon the transfer being made. Where recurring payments are in place, the caseworkers of the German CA request confirmation of payments by letter or email from the recipients every few months to ensure that these are in fact being received. Furthermore, the recipients and the other CA are informed that the relevant date for the currency conversion is the day the German CA receives the payment from the debtor. Discrepancies are clarified with the other Central Authority and the recipient.

Suisse	As stated in a., the current processing of international maintenance cases based on the conventions and agreements concluded by Switzerland is carried out in cooperation between the Central Authority at the federal level and the competent authorities in the cantons. In most cases, incoming and outgoing payments are made directly via the cantonal or local authorities and the parties concerned (and based on the respective terms and conditions of the individual banking relationships). Only within the framework of the transitional solutions with states which know cheque payments (Australia, USA, certain Canadian provinces) incoming payments to Switzerland are processed via the Central Authority. The decentralised payment processing that already exists today is still preferred. A (certain) centralisation of payment processing would only be an issue if a (completely) centralized organisation with a Federal Central Authority were to be created in the future (e.g. when Switzerland joins the Hague Convention of 23 November 2007 on the International Recovery of Child Support and Other Forms of Family Maintenance). The future organisation of the processing of maintenance cases is currently the subject of clarifications based on a political proposal.

<b>Allemagne</b>	Regarding electronic payments: Most of the payments to creditors in Germany are made by electronic transfer. The majority of those electronic payments go straight to the creditor. A much smaller number of payments is made to the German CA which then forwards the payment to the creditor. Where electronic payments are made by the debtor to the German CA, the Federal Treasury, holding the CA's banking account provides an electronic payment receipt. The electronically provided payment receipt is necessary for automatic processing of the payment. Regarding checks: The German Reserve Bank (Deutsche Bundesbank) no longer processes checks since 1 January 2023.

<b>Allemagne</b>	As far as the payments are processed via the German CA, the monitoring of the payments is possible. That concerns many incoming cases (e.g. outgoing payments), because the debtor is asked to send his payments to the bank account of the German CA (Bundeskasse/Federal Treasury). Especially in outgoing cases mainly with EU member states (i.e. incoming payments) the payments cannot be monitored as the debtors / other Central Authorities / bailiffs regularly pay directly (via SEPA) to the creditors in Germany.

Current civil service resources indicate that there would be no room for such a policy change. Before this could be further considered, it is necessary to guarantee that there is sufficient personell for the adequate execution of the basic role of the Central Authority. At this time, all resources are allocated with a focus on the mandatory functions of the Central Authority required by the Convention.

<b>Philippines</b>	The DSWD as the Central Authority has no authority to handle the transfer funds of the debtor and creditor in relation to child support. The funds should be through their respective individual bank accounts or in any manner that will be agreed upon by both the debtors and the creditors.
<b>Pologne</b>	The above will be subject to analysis if an international legal framework in this regard is developed. Currently in Poland, a decentralisation of the Central Authority persists (the requesting Central Authority and the requested Central Authority) – neither of these authorities handles the transfer of funds.

Mid-January 2023, the German CA received the first weekly electronic bundled payment via SWIFT-transaction which included child support payments from the first two US test states.
<b>Argentine</b>	Argentina hasn't bilateral solutions.
<b>Autriche</b>	Direct payments between debtor and creditor are always preferred.
<b>Belgique</b>	
<b>Brésil</b>	Not applicable, as the Brazilian Central Authority is not involved in payments.
<b>Estonie</b>	We are testing ISupport systems with Finland. We have agreements between CA-s with neighboring countries, exchanging paperless proceedings. For example, with Latvia, using digital signature, and also via-email with Finland.
<b>États-Unis d'Amérique</b>	Once the CAP service has completed enrollment of interested U.S. states for transmitting payments with Germany, OCSE will provide additional information to

	foreign authorities about the process for enrolling with CAP to receive payments through the service.
<b>France</b>	no answer
<b>Lettonie</b>	S.O.
<b>Lituanie</b>	Aucune
<b>Nouvelle-Zélande</b>	We could share our experience developing international payment solutions for inbound and outbound payments.
<b>Nicaragua</b>	Nicaragua does not have a bilateral agreement on international food collection issues.
<b>Norvège</b>	Nothing in particular
<b>Philippines</b>	The Philippines has just started implementing the 2007 Convention on Child Support, thus no record yet regarding bilateral solutions with other States. As way forward, we will explore having the bilateral agreement with the countries with high cases of child support.
