The context of the ongoing revision of the EU Regulation :

Started in 2018 - A final text to be adopted in 2020

I. The electronic transmission of requests and documents :

How to best reconcile efficiency, security and data protection ?

- Use a common IT platform
- Use secure emails
- Set up a decentralised system

## 2. Cross-border electronic service of documents : all or nothing ?

- Reading from the same page : the consensus on secure electronic service
- Electronic cross-border service by email, a must have ?
