1980 Child Abduction / 1996 Child Protection Conventions: Planning for the next Special Commission meeting

I. Introduction

- 1 Following on Conclusion and Decision No 19 of the Council on General Affairs and Policy (CGAP) of 2020, the Permanent Bureau (PB) has started to plan for the next meeting of the Special Commission (SC) on the practical operation of the *Convention of 25 October 1980 on the Civil Aspects of International Child Abduction* (1980 Child Abduction Convention) and the *Convention of 19 October 1996 on Jurisdiction, Applicable Law, Recognition, Enforcement and Co-operation in Respect of Parental Responsibility and Measures for the Protection of Children* (1996 Child Protection Convention), tentatively scheduled for 2023.
- 2 This Preliminary Document reports on the planning of the PB for the next SC meeting and provides an initial list of possible topics and projects concerning its preparation.

II. Preparatory work

- 3 The PB has initiated a number of projects to prepare for the next meeting of the SC, as outlined below.

A. Circulation of questionnaires

- 4 In preparation for the next meeting of the SC, the PB envisages circulating three questionnaires to Members and Contracting Parties in 2021 and 2022.
- 5 The first questionnaire, planned for circulation in the first half of 2021, is intended to elicit the feedback of Members and Contracting Parties in relation to the list of topics that should be brought to the attention of the SC (see section B below). The PB plans to inform CGAP on the prioritisation of these topics, and other more practical elements in preparation of the next meeting of the SC, at the CGAP meeting in 2022.
- 6 In early 2022, the PB will circulate, as has become custom, two further questionnaires on the practical operation of the Child Abduction and Child Protection Conventions to Members, Contracting Parties to the Conventions, and other interested non-Members. The responses to these questionnaires will inform the agenda of the SC meeting and, depending on CGAP's consideration of the issues relating to INCASTAT (see section C below), may also provide updated statistical information on the use of the two Conventions. Ahead of their planned circulation in 2022, these two questionnaires will be shared with CGAP for its information at its meeting in 2022.

B. Possible topics

- 7 The PB has begun to work on lists of possible topics for the 2023 SC meeting, as outlined below. These lists are not exhaustive and are continuously being updated. They reflect the latest developments and continuing issues that have arisen in relation to the two Conventions. Subject to the views of Members and Contracting Parties, these lists could be included in the preliminary questionnaire on possible topics for the next meeting of the SC, that will be circulated in advance of the meeting. The questionnaire will provide an opportunity for Members and Contracting Parties to indicate their support for, or interest in, these topics, as well as their suggestions for other topics that could become the subject of focused discussion papers or reports.

8 Possible topics in relation to the 1980 Child Abduction Convention include:

1. Interpretation of “habitual residence”: In light of most recent case law, especially in relation to very young children or children constantly on the move,¹ issues arising from the interpretation of the term “habitual residence” in the Child Abduction Convention
2. Grave risk of harm: The impact, utility, and any issues arising three years after its publication, from the use of the Guide to Good Practice (GGP) on Article 13(1)(b) of the Child Abduction Convention²
3. Hearing the child: Current practices regarding the participation of the child in child abduction proceedings,³ both in the context of Article 13(2) and more generally hearing the voice of the child
4. Delays in proceedings: Procedures and good practices that have been implemented by the Contracting Parties to reduce delays⁴
5. Proceedings by remote hearings: The impact of remote hearings and the use of video-link for collecting evidence in abduction proceedings, particularly in light of recent developments related to the COVID-19 pandemic where proceedings were conducted remotely

Any decision made concerning INCASTAT will have an impact on the statistical study that will be prepared for the next SC meeting.

D. 1996 Child Protection Convention: Country Profile

- 12 The PB further draws Prel. Doc. No 6¹¹ to the attention of CGAP. The PB invites CGAP to approve the suggested workplan related to the development of a Country Profile for the 1996 Child Protection Convention with a view, as emphasised by previous SCs, to implementing it in an electronic environment. The PB invites Members and Contracting Parties to provide suggestions as to what information they consider should be included in the Country Profile.
