

e-APP: already 10 Jurisdictions participating

Georgia and Andorra each launch their e-Register

In July 2009, Georgia and Andorra each announced the launch of their e-Register for verifying the authenticity of their respective Apostilles. These new e-Registers are accessible at www.cra.gov.ge/alp (Georgia) and www.mae.ad (Andorra).

Georgia and Andorra join New Zealand, Moldova, Bulgaria, Murcia (Spain), Colombia, Belgium, Rhode Island (US) and Kansas (US) in being among the first 10 jurisdictions to have implemented at least one of the two components of the e-APP.

The Permanent Bureau congratulates Georgia and Andorra on the successful implementation of their respective e-Registers and reiterates its compliments to all other participating jurisdictions. Contracting States are invited to consider implementing the e-APP, and experience the benefits of secure technology, cost reduction, as well as increased security and efficiency the program provides.
